Terminal 10.1, 10.2

Specification

Dimensions: H = 600 mm, B = 475 mm, D = 260 mm, 23 kg

Power: 230 VAC \pm 10%, 50 Hz, 150 W

ID: RFID can be offered with customer print

Display: 10" touch 1000 nits, 1024 x 768, with optical bonding premier 5W resistive touch, operating temp -20 – 65C

Box Pc: BOXER-6404U, fanless Intel J1900 Quad-core 2,0 GHz, 2GB RAM, 64 GB mSATA SSD

Capsling: Kapslingsklass IP 65. Isolated with thermostat controlled heating.

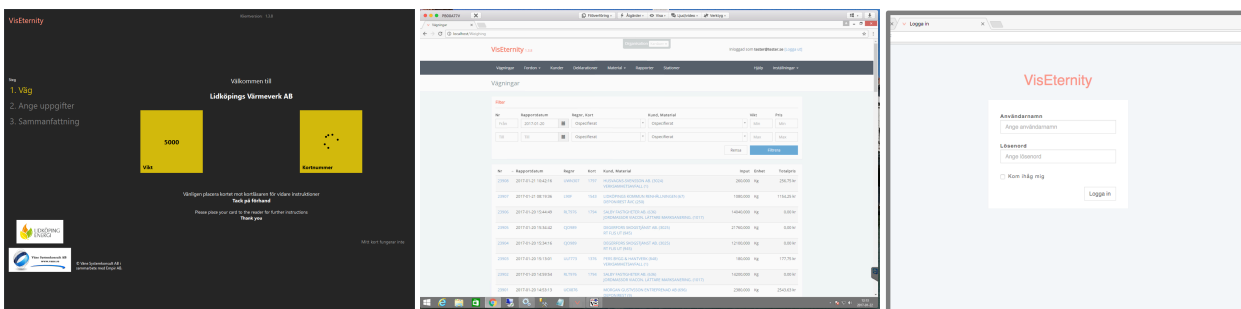

Connection: Ethernet TCP/IP (standard), 4G Pocket WIFI (option)

Kiosk printer: Nippon NP-3511D-2 Kiosk Printer, 76 – 82,5 mm, 200 mm/sec

Declaration: CE-marked LVD 73/23/EEG, 93/98/EEG, 89/336/EEG, 92/31/EEG, 93/68/EEG

Application

VisEternity Terminal Client Distributed REST-based client software for a great variety of platforms such as web-based, panel pc:s and mobile devices. Automated user based process for identification/scanning, process/logik-/information handling as well as reporting/transactions/invoice and governance. Completely web-based secured access on internet/intranet according to costumer demands.
